

CT-303

Glass Assembly Machine

- Fast assembly of windows, doors and elements.
- The upwards slide movement of the table eases working on the frames.
- Maintenance and accurate balance by means of parallel clamping unit.
- The glazed frame can be packed and then transferred effortlessly by sliding on the reels.

Technical Features

- Air Pressure: 6-8 bar
- Air Consumption: 50 l/min.
- Max. Frame Length: 2360 mm
- Max. Frame Height: 2000 mm
- Max. Frame Weight: 120 kg
- Machine Height: 3000 mm
- Machine Length: 2250 mm
- Machine Width: 1000 mm
- Machine Weight: 410 kg
